## Oil filter for Rotax engines

*Tempest is pleased to inform you that the oil filter for the Rotax 912/914 engines is now available. The new filter features the many advancements that have made Tempest oil filters so popular, including the magnetic secondary filtration system.*

### Filter Specs

- › Full can thickness of .019"
- › Base plate thickness of .100"
- › Burst pressure of 275 – 325 psi
- › Media content of 118 sq. in.
- › Safety wire lock tab ring

*The Rotax filter compares with a burst of 240 – 270 psi, 104 sq. in. of media, no safety wire lock tab ring and no magnet.*

**PART NUMBER: AA825706**  
**OIL FILTER, SPIN-ON ROTAX**  
**825-701, 825-703 and 825-706**
